We strive to instill both confidence and independence

Our name further echoes our belief that every child should be able to remember their first educational experience as a magical time of fun-filled learning and exploring their first world away from home. We offer a diverse and stimulating environment that will keep your child eagerly anticipating each new day.

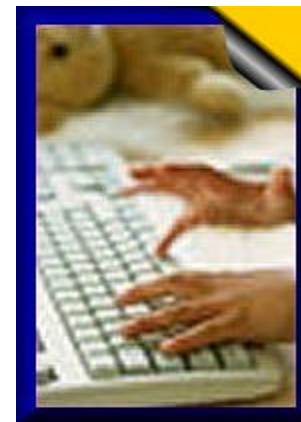

Established in 1994, Once Upon A Time Child World is licensed by the State of Michigan and takes pride in delivering quality care and education to your children. We strive to meet their individual needs and to challenge them at each level of development.

### Our Goals Are Simple:

- Quality care provided in small groups by experienced Early Childhood Educators
- Cultural diversity
- Enhanced learning environment including special activities, field trips, and community excursions
- Introduction to interactive computer activities
- Formal progress evaluations
- Professional staff development to ensure your child's growth
- Maintenance of a clean, safe, and healthy environment

ONCE UPON A TIME  
CHILD WORLD, INC.

We help your child learn to master each new skill at a pace that is comfortable yet

At Once Upon A Time we embrace, salute, and encourage the family.

Your active involvement in your child's care and learning activities is a primary determinant in their subsequent success. We invite you to tour our facility, ask any questions that you need answers to, and schedule time periodically to spend at the Center.
